# Cobalt Institute of Math and Science Academy School Accountability Report Card Reported Using Data from the 2018-19 School Year Published During 2019-20 

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at https://www.cde.ca.gov/ta/ac/sa/.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at https://www.cde.ca.gov/fg/aa/lc/.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

## DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at https://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

## Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## School Description and Mission Statement (School Year 2019-20)

Mission Statement: Provide a caring environment to encourage and challenge the next generation of STEAM-focused individuals.

Vision Statement: The Cobalt Institute of Math and Science's vision is to produce:
Responsible community members trained in technology, engineering, and science.
Open-minded, lifelong learners who appreciate the integration of the arts in the technical world.
Analytical thinkers who are successful in all academic areas.
Reliable individuals ready for post-secondary education or career opportunities.

## Principal's Message

CIMS has a vision that supports the belief that "All students can learn." Our ultimate mission is to provide a caring environment to encourage and challenge the next generation of STEAM-focused individuals. We will place students at the forefront of an ever-changing society by interlocking systems of school, family, and community. An emphasis will be placed on academic excellence through integrated technology, quality instruction, career exploration, and personal-social development.

First and foremost we believe school should be a safe and orderly place. We believe that every child who wants to learn has the right to learn. We believe children will rise to the level of expectation of their instructors and that every child will experience many opportunities and challenges. Students at CIMS will experience learning at the highest levels from a welltrained, prepared and excited staff of teachers and support staff; integrating curriculum that supports science, technology, engineering, and math (STEAM) courses through our partnership with Cal Poly. We believe in educating the whole child in that children must develop socially and emotionally as well as academically. We also believe school should be a rewarding memorable experience and will partner with all stakeholders to support students in reaching their fullest potential.

The administration, faculty, and staff at CIMS believe this is a school where adults and students come to succeed. We foster a community based on kindness, cooperation, educational challenge, inclusion, and creativity. We strive to build a strong school, student, family, and community relationships that will allow students to become active and contributing young citizens.

## A. Conditions of Learning

## State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

## Teacher Credentials

## Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2019-20)

Year and month in which data were collected: November 2019
*Regarding ELA textbooks: All textbook programs not on the SBE approved list were selected through a local adoption process where they were determined to be aligned to the most current state standards. The local adoption process mirrors that of the State Board adoption process as an adoption committee (representing all school sites, teachers and administration) evaluated all available textbooks and programs (including those on the SBE list). The process includes materials evaluation for standards alignment, publisher presentations, piloting (when possible), additional evaluation and discussion, public display and comments, and school board approval.
*Regarding Science textbooks: We have begun the review, piloting and adoption process for CA and NGSS aligned materials. Expect to adopt and implement for the 21-22 school year. Current materials are aligned to previous standards.

## School Facility Conditions and Planned Improvements (Most Recent Year)

Cobalt Institute of Math and Science School (CIMS) provides a safe, clean environment for students, staff, and volunteers. Built in 2006, Cobalt Institute of Math and Science School sits on approximately 28 acres. The school campus consists of the four computer labs, Career Center, library, cafeteria, staff lounge, school offices, Multi-Purpose Room, Gym and 55 classrooms and provides adequate space for students, staff, and visitors.

Safety concerns are the number one priority of the maintenance and operations department. District maintenance supervisors are proactive and conduct inspections at school sites on a continual basis. Repairs necessary to keep the school in good repair and working order are completed in a timely manner. A work order process is used to ensure efficient service and that emergency repairs are given the highest priority. The most recent completed fit inspection was conducted on August 20, 2019.

Safety of the school facility is an ongoing area of priority and support for VVUHSD. Cobalt Institute of Math and Science ensures students are safe on school grounds before, during, and after school. The school has well maintained perimeter fencing and is provided security officers staffed at a district ratio of 350:1. Supervision during the school day is an assumed responsibility of all administrative, staff, and security officers. All student events and programs that extend beyond the regular school day are provided with security officers and are supervised by an administrator or administrative designee. The use of a security camera system also supports the supervision and safety of students.

Cobalt Institute of Math and Science is a newer facility and has no immediate needs for planned improvements at this time. During the 2017-2018 school year, CIMS did complete one renovation to convert a culinary arts classroom into a science classroom to meet the needs of the school site for their Project Lead the Way program. The school is maintained and scheduled for routine deferred maintenance as part of the district maintenance cycle for areas such as paint, blacktop repairs, etc. VVUHSD has adopted cleaning standards for all schools in the District. CIMS has one full-time day custodian and two full-time night custodians to maintain our campus to the District cleaning standards.

## School Facility Good Repair Status (Most Recent Year)

Using the most recently collected FIT data (or equivalent), provide the following:

- Determination of repair status for systems listed
- Description of any needed maintenance to ensure good repair

## B. Pupil Outcomes

## State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3-Alternate) on the CAAs divided by the total number of students who participated in both assessments.

## Career Technical Education Programs (School Year 2018-19)

Project Lead the Way (PLTW) Courses and School Pathways are specifically offered at CIMS for grades 9 through 12. These courses are specifically focused on college, career preparation and work. These courses are integrated through a Pathway course chosen by each student beginning in the ninth grade. Students can choose a Biomedical, Computer Science or Engineering Pathway. The Pathway includes all the core academic courses to prepare students for careers or postsecondary studies in STEAM fields. PLTW courses are aligned with national standards in Math and English (ELA), Next Generation Science Standards, and CSTA K-12 and the units are designed to complement math and science courses. All courses are A-G approved. Teachers credentialed in Math and Science are trained through the University for specialized Courses in Biomedical, Computer Science and Engineering options. Many colleges give students who have completed a pathway course from 9-12th grades/ with a B average, 6 or more credit units upon acceptance.

## C. Engagement

## State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site.

## Opportunities for Parental Involvement (School Year 2019-20)

Parents and the community are very supportive of the educational program at Cobalt Institute of Math and Science School. Parents can participate in various committees, such as English Language Advisory Committee (ELAC), School Site Council (SSC), Coffee with the Principal, District Parent Advisory Committee, Local Control and Accountability Plan (LCAP) and other committees and advisories. Parent volunteers are welcome to work in any capacity pending completion of the approval process. Parents enjoy going on the many educational trips to chaperone and support our students outside of the classroom.

Parents who wish to participate in Cobalt Institute of Math and Science School's leadership teams, school committees, school activities, or become volunteers may contact Rebecca McNeese, Assistant to the Principal, at (760) 955-2530 ext 45111 or Deborah Nelson, Parent Engagement Liaison at ext 45123.

## School Safety Plan (School Year 2019-20)

Safety of students and staff is a primary concern of Cobalt Institute of Math and Science School. Approved volunteers regularly visit the campus to assist in the classroom and participate in school events. Parents and visitors are welcomed and required to check in at the school office upon arrival. Each visitor must possess a California ID Card or Drivers License and be run through the RAPTOR system to obtain a visitor's badge. All visitors must return to the school office upon departure to check out. All volunteers working directly with students are required to achieve fingerprint clearance prior to volunteering on campus. During lunch, passing periods, before and after school, three full-time campus security, teachers, and staff supervise students and school grounds, including the cafeteria and physical education areas, to ensure a safe and orderly environment. The security team also completes a full campus sweep at the beginning of each classroom period to ensure that all students are in class and not roaming the campus or on the perimeter.

The Comprehensive Safe School Plan was developed by the District to comply with Senate Bill (SB) 187 of 1997. The plan provides students and staff members with a means of ensuring a safe and orderly learning environment.

Each school includes the following requirements of (SB) 187 within their safe school plans: current status of school crime; child abuse reporting procedures; disaster procedures, routine and emergency; policies related to suspension and expulsion; notification to teachers; sexual harassment policy; provision of a school-wide dress code; safe ingress and egress of pupils, parents, and school employees; safe and orderly school environment; and school rules and procedures.

The school evaluates the plan annually and updates it as needed. Safety procedures, including elements of the Safe School Plan, are reviewed with school and District staff in the fall at the start of each school year. The Safe School Plan was most recently reviewed, updated, and discussed with school faculty in September of 2019.

Professional development activities enhance communication between schools and grade levels to focus on improving instruction to enhance student achievement as outlined in the strategic priorities determined by the Board of Trustees. Our staff will participate in a variety of professional development opportunities over the 2019 and 2020 school year. Offsite include but are not limited to AVID Strategies, Quality Teaching For English Learners, Next Generation Science Standards and Classroom Management. The focus for on-site professional development will be placed on building relationships, Focus Note Taking, instructional strategies to increase rigor and instructional support in the classroom and educational technology implementation. Professional development is also provided directly in the classroom through the use of instructional coaches in Math.
